This is the issue:

"dot1qPortGvrpStatus object from qBridgeMIB (OID 1.3.6.1.2.1.17.7.1.4.5.1.4) is seeing difficulty in generating Set stubs since table augmented. Get stubs are generated."

```

As discussed, I need to know what if subsequent versions address the above issue.

Also, would it be possible for you to provide pricing on the most current version of the software, if we can't resolve this matter, otherwise?

Thank you for your time,

Jennifer
